

WHY CHOOSE JOBOMAX HOMES?

✓ SECURITY

We secure clean land titles and provide a US law-based contract to guarantee delivery. We have never defaulted on our obligations to a client.

✓ QUALITY

We follow international quality standards in key areas, and use advanced technology to create a finished product not available anywhere else in West Africa.

✓ FINANCING

We offer up to 70% financing in US dollars for clients living outside of West Africa.

From start to finish, Jobomax Homes is here to help you achieve the pride of home ownership in West Africa.

THERE ARE MANY WAYS TO BUILD YOUR DREAM HOME WITH US.

I want to be part of a comfortable, secure and welcoming community.

Whether you see yourself surrounded by mountains or close to the city, we have the right location for you in one of our planned communities.

Not ready just yet for this investment? Sign up for our Extended Down Payment Plan. You'll have 24 months to complete your 30% down payment.

I want a Jobomax home on my own land.

We can do that! For cash purchases, you may save up to \$5000 by building on land you own and we offer financing options as well.

I want to do my own finishes on my own timeline.

This is a great way to get the biggest part of the job done quickly, and take your time to complete the finishes.

I have land and want to trade it in for a home.

If the land you own is large enough for us to build several homes, you may be able to turn that land into a home for yourself, and gain some neighbors as well!
